KNITTING MACHINE AT ROUND MOUNTAIN

Yesterday a delegation composed of Mrs. James J. McQuillan, Mrs. Hamilton Reid, Mrs. N. M. McCormack and Mrs. Roy Davenport, went from the local Red Cross chapter to visit the Round Mountain auxiliary. They met with a most cordial reception and enjoyed a delightful luncheon at the home of Mrs. Thomas Cahill.

During the afternoon Mrs. McCormack instructed Mrs. Harrington, head of the Round Mountain knitting department, in the use of a knitting machine recently acquired by the auxiliary. Mrs. McQuillan, who is head of the Tonopah workroom, took out with her a large quantity of supplies, patterns, etc., and instructed the ladies as to how they were to proceed in getting out their share of Nye county's quota, which they are most eager to do. The Round Mountain auxiliary had enough funds in its treasury to pay for the knitting machine, make a donation of \$50 to the Red Cross and still leave themselves a small working fund for current expenses. This community, though small and somewhat isolated, surely essays 100 per cent patriotic.

Accurate war news in the Bonanza.

TEXAS WOMEN WILL VOTE SOON

(By Associated Press)

EL PASO, Tex., July 19.—Women of Texas will not only vote for the first time at the primary election to be held July 27th, but many women will act as officers of the election on that date. Because so many men have gone to war, J. J. Kasper, county chairman, has issued a call for women to act as tellers, judges and poll book holders on election day. Several have already accepted, and as the pay is \$5 for the day, many others are expected to apply in order to earn vacation pin money.

DEATH OF MOTHER OF MRS. BEN D. LUCE

Mrs. Elizabeth Conner, who was 86 years of age on the 4th of July, mother of Mrs. Ben D. Luce, died this afternoon at 2:30 from a dropsical disorder. Interment will be at Salt Lake where the body will be taken Sunday morning. Friends may view the remains at the undertaking parlors tomorrow afternoon.

Mrs. Conner's husband died eleven years ago and the family surviving consists of Mrs. Ben D. Luce, Mrs. L. E. Wiseman, Seattle; Charles Conner, and George M. Conner, Salt Lake City. Interment will be in the family plot at Salt Lake. Deceased lived with her daughter here for the past four years and for a year was practically helpless, requiring the constant attention of her devoted daughter. Death came without a struggle as the venerable lady passed away in a slumber.

GERMANS DISLIKE SHOT GUN IDEA

(By Associated Press)

THE HAGUE, July 19.—German newspapers received here are raising quite a pother over a story received in Germany from Switzerland that a large number of American troops have been supplied with sawed-off shotguns for close fighting. The Cologne Gazette, in commenting on the report, denounces America's barbarism and assumes that tomahawks and scalping knives will soon appear on the American front. The newspaper warns the German troops that the Americans are no "honorable warriors."

The Weser Zeitung says the barbarous shotguns have been served out not because they are likely to be effective, but because the ill-trained Americans cannot use rifles and are badly supplied with machine guns.

WIN THE WAR DAY FOR LABOR UNIONS

(By Associated Press)

EL PASO, July 19.—Labor day will be "win the war day" for labor unions of El Paso. This was decided upon at a meeting of the local trades council held here. In addition to a parade of all union men the Labor day celebration will include the dedication of the replica of the New York harbor statue of Liberty which is being erected in Pioneer plaza by the union craftsmen who have donated their services and the materials for the construction of the statue.

MEMENTO FROM MOTHER

(By Associated Press)

EL PASO, Tex., July 19.—When H. J. Baron sent his stenographer to the bank to get some change she returned with a number of bank notes. Written across the face of one of the bills was the following: "To my darling boy in camp. Mother." Mr. Baron is keeping the bill and intends to have it framed as a memento of the war.

BOY SCOUTS GET BUSY

(By Associated Press)

YSLETA, Tex., July 19.—Boy Scouts from El Paso are being employed in the pear orchards and fruit canning factory here. These boys are camping out here and are working on a piece work basis and making from \$2 to \$2.50 per day. The boys are in charge of a scout master and are enjoying the outing while assisting to prepare the pear crop for market.

ST. PATRICK'S CHURCH

Father T. N. Stanton, who is temporarily attached to St. Francis church, San Francisco, arrived here last evening to take charge of St. Patrick's church during the absence of Father Noonan. Masses will be conducted as usual Sunday morning and also evening services. Father Stanton hails from the diocese of Buenos Aires, Argentina.

RECRUITS GO MONDAY TO KANSAS POST

The local exemption board today completed the list of recruits who go out to Fort Riley, Kansas, leaving here next Monday. The names are: Bell, Groene, Virgil Arnold, Bertia, Luga, John Benton, Barney Marcary, Coaldale, Colo., Louis Bighu, Sam Wasson, Geo. Hemphill, Frank Woods, Robert Shields, Walter Robert Broadman, Michael Cook, Thos. Spears, Maurice Libecque, Joseph Benoue, Axel Anderson, Yee Tong, Frank Rogers, Gerald Abernathy, Duane, Granville McDonald, Joseph H. Carter.

J. B. Walnwright left this afternoon to bring in Gerald Dugan. Broadman goes as a volunteer as he belongs to class 4, having been granted exemption on account of his wife, without having asked for any immunity.

RECEPTION AT THE MIZPAH FOR THE ELKS FROM ELY

The boys from Ely, who were initiated in the Elks Wednesday evening, were given a reception at the Mizpah hotel last evening when the candidates and their friends were guests of Messrs. Hickernell and White at a complimentary dance which was enjoyed by several hundred ladies and gentlemen who kept dropping in during the evening.

LIMITING SUGAR ON THE BORDER

(By Associated Press)

EL PASO, Tex., July 19.—The district food administrator has found it necessary to further limit the distribution of sugar along the border here. It has been found the grocery men were selling sugar on orders permitting the sale in quantities for canning purposes. Instead of using the sugar for this purpose the buyers were taking the sugar across the river to Mexico where it was being sold at an advance of more than 100 per cent.

ROMEO WAS CLAD IN KHAKI

Played the Popular Game, Choosing the Dinner Table to Work on Affection of Waitress.

It is natural that we should be eager to do whatever we can for the boys in khaki; but sometimes, when the patriotic zeal is not accompanied by a sympathetic imagination, the beneficiary may pay to be delivered from our friends, writes "An American Woman" in the Outlook. A homesick lad is likely to want either an atmosphere like that of his own home or else the exotic flavor the expectation of which has helped him to undertake the great adventure so cheerily.

In one family among my neighbors the son of the house was scandalized when one of their guests at Sunday dinner made the perfectly simple and natural request that he be permitted after the meal to repair to the kitchen where the pretty waitress was. Permission was denied, but young Romeo was not discouraged, and this letter came "To the Girl That Waits for Mrs. So-and-So: You are the best ever. Are you keeping company with anybody?" He added his name and a few personal details, and this delicious bit of identification: "If you don't know the soldier wrote this, it is the one that touched your hand under the dish when you passed the potatoes."

WHERE TO LOOK FOR WIFE

Seek Her in Butcher's Shop, Says This Writer, and Mark Just How She Buys.

A good housewife will look at least two square meals ahead of her nose. The modern system of marketing during the high cost regime is such a fine art that a youth contemplating matrimony should lie to the market place for selecting a bride. My boy, Zim advises in Caricatures Magazine, when you see a maiden plucking, smelling and pricing a soup bone, you may rely on her sense of economy, for she is looking forward not less than two meals. The soup bone, when cooked, is merely food in the rough or primitive state. Its choicest by-products are realized after boudoir stage. Thereafter comes goulash, the croquettes and the fuscious hash. By all means avoid the girl who orders choice cuts of porterhouse or English mutton chops. She will not make a good helpmate. But the girl who selects the chuck or neck pieces or the tail end of a ham bone, and renders them into dainty, palatable dishes is the one you want. So take my advice and seek the market place when you feel that you have had your fill of bachelor loneliness and wish a taste of wedlock. Follow such a girl around until you are perfectly satisfied, then nail her.

As She Is Spoken.

The teacher was giving dictation for a writing lesson. She began "Once upon a time—"
"Please, teacher, what is a punny?" asked a little girl.
"What do you mean, Lizzie?" asked the teacher. "I do not understand you."
"You said: 'Once a punny time.'"
The teacher explained by improving her enunciation.

WHAT'S WHAT

(By L. L. Mudgett)

Vol. 2, Tonopah, July 19, 1918, No. 2

This is no time for me to make any wise sort of a talk. All I gotta say is that we are going to go wild this very night about 8:30 in an effort to celebrate the great victory of our boys over in France. If you feel good over it all you gotta do is fall in line and make all the noise you can and them some. Billy Young will be there with his band of patriotic music dispensers and there will be some red fire and all we'll do will be to think of the boys who are painting the word DEMOCRACY all over the pages of history. Also don't forget that there will be another bunch of fighters leaving here Monday morning and we want, to give them a bully good send off. Don't forget that it takes money to keep a winning army going and every dollar you save and invest in war stamps helps the game along. Altogether, fellows! Up high! Way over!

MUST ELECT G. O. P. TO CONDUCT WAR

(Continued From Page One.)

and finance which underlie the tax paying power of the United States. "We have been building up a great mass of statutes an executive authority unprecedented in scope, and absolutism. We shall continue it so long as the war lasts. But when the war ends all this system of executive government will have to be unscrambled and we shall have to get back to a government of limited powers and individual freedom. We shall not go back where we were. That never can be done. And it ought not to be done, for we are learning valuable lessons and we must utilize them in the re-arrangement which follows the war. But that rearrangement must be based upon the same fundamental principles which have made America great and free. Never in American history have brains and character been needed more in the congress of the United States than they will be at the time, probably within the life of the next congress, when Germany breaks and peace comes.

"Beyond that day of victory, a new world will rise from the ashes of sacrifice. In that day the party that has been faithful to the right, without fear, the party that rises to the greatness of these spacious times with vision and unselfish devotion, will have its reward in the confidence and trust of the American people."

MINE AT CAMP KEARNEY SHAKES UP CALIFORNIA

(Continued From Page One.)

a shaft dropped from the side of the "enemy" trench, under cover of a sand bag overhead protection. Timbers for all the braces in the gallery and shafts were framed at a shop some distance away and carried off by details of engineers. All the excavated material from the main gallery was carried to the surface in sacks, on men's shoulders. That from the secondary gallery was removed in buckets and hauled up the shaft with a windlass.

At first acetylene miners' lamps were used in the workings, but as the distance from the surface increased and the air grew worse candles were used for safety's sake. "As long as a candle will burn a man can work," said one engineer officer, "So we're using candles."

The material through which the galleries were driven is very hard. It is mainly gravel bound together by clay into a cement-like substance almost as hard as concrete. It cannot be blasted successfully the engineers say, having tried that in the early stages of dugout work here. "You can make better progress with a pick than anything else," one engineer said, "but at that you don't go very fast. In three days here we only went ten feet. We could have gone further in rock."

While the work was going on other engineers installed an apparatus for locating the workers by sound and obtained some very accurate charts of their activities.

CANADIAN RECRUIT DEAD

(By Associated Press)

OTTAWA, July 19.—W. A. Dow, of Yuba City, Cal., is listed as "presumed to have died" in the overseas casualties.

Read today's news today in the Bonanza.

GREAT WESTERN MINE BEGINS LATERAL WORK

Manager John McGee, of the Great Western, this morning began his first development of the north crosscut since the crew was compelled to abandon that section fifteen months ago. Ever since the first of July the force has been employed dewatering and cleaning out the former workings which were found in bad shape. The north crosscut had caved in several places and the lateral had to be completely timbered for the distance of 25 feet from the shaft where the heading was stopped with the coming of the floods. Three shifts are employed, making a crew of eighteen men, and it is believed the cut can be advanced at the rate of ten feet every twenty-four hours. The pumps are running splendidly, handling 550 gallons a minute and giving excellent service.

GERMAN ACTOR IS HELD AS AN ALIEN

WASHINGTON, July 19.—Hans Frederick Dreikaus, a German alien enemy, going under the stage name of Harry Dumont, and who on Monday night at the Belasco theater played the important role of a German lieutenant in the new show of "Come Across," was arrested last yesterday afternoon by United States Marshal Maurice Splain for violating the presidential eviction order. Dreikaus, who is charged with having come into the District of Columbia, which is barred to all alien enemies, may be sent to an internment camp for the rest of the war. Meanwhile he is a boarder at the district jail pending investigation of his antecedents and awaiting action by the department of justice. Whether he will be handled under a presidential warrant and interned or dealt with otherwise depends upon developments in the case.

Under the president's proclamation of April 6, 1917, alien enemies were required to leave the District of Columbia and are not allowed to enter the district for the period of the war. This proclamation is being rigidly enforced. If Dr. Karl Muck of the Boston Symphony orchestra had tried to come to Washington after the order was issued he would have been arrested. Recently a chorus girl of a burlesque show had to remain in Baltimore while the show played here because she was an alien enemy.

DON'T DOUBLE THIN WOOL IS HEADQUARTER'S REQUEST

Mrs. A. L. McLeish, director of the bureau of Red Cross chapter production, has the following to say regarding knitting:

"It has come to my attention that certain chapters are using the white wool double; it is thin, but we have been allotted only a certain quantity with which to produce a certain number of socks, and if the wool is used double, we are going to fail in the number of socks."

"The wool is quite warm, though thinner than any one would have chosen to have it, but it is most necessary that our complete allotment of 225,000 pairs be completed. France is looking to us for that number and we can't fail them."

"I would suggest using stripes of colored wool in the ribbing, so as to save even an inch or two of the white."
